Kathirgamanathan Kajanan

Senior Software Engineer

Vavuniya, Sri Lanka | +94 762925096 | Kajanan02000@gmail.com | /in/kajanan-kathirgamanathan | Kajanan02 | Kajanan

Profile

I'm a dynamic senior full-stack Engineer driven by a passion for innovation and user-centric solutions. With a strong foundation in problem-solving and attention to detail, I excel in crafting robust software solutions in dynamic environments. My journey in software engineering has equipped me with versatile expertise spanning front-end development to back-end architecture. I'm motivated by the challenge of solving complex problems and always eager to explore emerging technologies to drive innovation forward.

Work Experience

Software Engineer, SenzMate IoT Intelligence — June 2022 – Present

- Designed and optimized a mobile physiotherapy and wellness application using React Native, Redux, Mediapipe, Node.js, and Express, reducing load times by 35% and increasing daily active users by 20%.
- Built a full-featured car rental platform with React.js (frontend) and Nest.js (backend), enabling real-time bookings and improving customer retention by 15%.
- Implemented event-driven data pipelines with Apache Kafka, Apache Spark, and Elasticsearch to handle high-volume event streams with reliability and scalability.
- Enhanced application speed by identifying bottlenecks and applying best practices in frontend rendering and backend API performance, reducing average API response time from 3000ms to 700ms.
- Championed code quality, modular architecture, and efficient state management, reducing bug reports by 30% in production.

Associate Software Engineer, SenzMate IoT Intelligence — June 2021 – May 2022

- Developed and maintained a real-time agriculture intelligence platform using React Native and the MERN stack, helping farmers improve crop yield predictions by 20%.
- Built a sports results tracking system using Next.js, MQTT, and the MENN stack, delivering live score updates with <200ms latency to over 5,000 concurrent users.

Software Engineer Intern, SenzMate IoT Intelligence — Dec 2020 – May 2021

- Implemented features for a Courses Management System using React and Node.js MongoDB, ExpressJs .

Education

BSc (Hons) in Computer Science and Technology
Uva Wellassa University, Sri Lanka

G.C.E (A/L) Physical Science Stream, G.C.E (O/L)
Vavuniya Tamil Madhya Maha Vidyalayam

Full-Stack Web Development
UKI Coding School

Technical Skills

Programming Languages: JavaScript, Python, C, Java

Mobile Development: React Native, Android Studio

Front-End: React.js, TypeScript, NEXT.js, Backbone, HTML, CSS, SASS, Tailwind

Back-End: Node.js, Express.js, Django, GraphQL, Nest Js, WebSocket

Database: MongoDB, MySQL, Postgresql

Cloud: AWS (EC2, Beanstalk, Route 53, OpenSearch, etc.), Docker

Soft Skills

Problem-Solving

Critical Thinking

Team Collaboration

Customer Service

SOLID Principles

Design Patterns

OOP Concepts

Open Source Contributions

react-native-searchable-dropdown-kj

react-native-send-direct-sms

react-form-buddy

Achievements

Winner - EngHack - 48 Hour Idea Hackathon (2022)

IEEE Innovation Nation Sri Lanka 2022 - Winner

Yarl Geek Challenge Junior 2016 - First Place and Winner

Volunteer Work

Student Member of IEEE

Member of Computer Society

Computer Society Web Admin

FOSS Club Technical Team Member

Alpha Microsoft Learn Student Ambassador

Impetus2023 Competition Web Team Lead
